

PRODUCT: Fixed Price

Energy Providers design Fixed Price Products for customers who want stability, simplicity, and protects budget against the risks of fluctuating energy prices. With a fixed price solution, you'll minimize that risk by securing a rate that will not change for the length of your agreement, even if prices spike in the spot market. You pay one fixed price per kWh for all of your electricity usage for the term of your choice.

Based on your historical and forecasted consumption, the providers will determine how much power to purchase in advance to be able to provide a fixed price for you. We manage the risk so you can relax.

OPTIONS:

- Ancillaries, capacity, and transmission can be fixed or passed through, depending on the wholesale market. If fixed, they are included in your contract price.
- Purchase renewable energy certificate to green a percentage of your usage.

PSF ENERGY

OPTIONS:

- Price Certainty – One fixed price for all usage.
- Simplicity – Make a one-time decision.
- Easier Budget Management – You'll gain the stability to plan your budget and electricity consumption more effectively.
- Usage Variance Protection – Keep a fixed price even when your usage varies from events beyond your control, such as a long summer heat wave.

Market prices are volatile; they can change by a lot, quickly. With a Fixed Price, you lock in your price so you are not exposed to price changes in the market.

With a Fixed Price, your price covers all your usage so you are not exposed to market price changes.
